English Conversation Program (ECP)

The Learning Exchange offers free conversational English sessions to Canadian citizens, new immigrants and refugees, age 19 years and up. If you are looking for a fun, casual environment to learn and practice your English, come pay us a visit! We offer four levels from beginner to advanced. Sessions are offered weekly, Monday through Thursday, and are 75 minutes long with a focus on conversation skills, using a wide range of topics including Canadian culture. For more information or to register, visit the staff on the 2nd floor!

Seniors Thrive (ECP)

For local seniors (55 years of age or older) who want to practice their English in a new and challenging way, Seniors Thrive offers activities just for you! Whether you like to sing, act, dance or play, you can learn English while getting exercise, meeting new friends and learning a new skill or two. For more information or to register, visit the staff on the 2nd floor.

Facilitator Training Program (ECP)

The English Conversation sessions are led by local volunteers. Volunteers don't need previous experience in leading groups or even volunteering. The Conversation program is always looking for new facilitators to lead the conversation sessions and provides a flexible training program and on-going professional development opportunities. If you want to gain valuable facilitator skills, confidence and abilities, or you just want to share your knowledge with other language learners, you would be an ideal candidate. Speak with staff on the 2nd floor for more information.

Computer Workshops

The basic and advanced computer programs are free, but require pre-registration. The basic workshops cover topics such as setting up email, file management and basic Microsoft Word. The advanced workshops are a more indepth look at Microsoft Word, Excel and Powerpoint for a work environment.

Computer and Drop In Program

Come by our afternoon computer and drop in program to access free Wi-Fi, use our computers, get tech help or engage in some of our arts and cultural programming. Join fun informal sessions that might include workshops, documentaries, games, and activities as well as educational field trips.

Artful Sewing & Mending

Interested in learning to mend or sew? Our facilitators Anna, Rosemary and Megan will show you how! Learn different hand-stitching and patching techniques. No sewing experience or sign up necessary, feel free to drop by on Wednesday afternoons.

Documentaries & Dialogue

Explore a wide range of documentaries and discuss the issues raised by these films.

Mahjong Club

Mahjong is a Chinese multiplayer tile game that involves skill, chance and strategy. Whether you have been playing mahjong for years or you are brand new to the game, everyone is welcome to drop in and play.

Tech Cafe's

Get your tech questions answered in these peer-led drop-in sessions. Learn how to use: Android, iPhone, Tablets, iPads, Laptops, Email, Social Media and other Tech Questions.
